

KINGSTON RADIO CONTROL MODELLERS

MINUTES of the Regular Meeting
Monday, May 15th, 2006

Called to Order: By Byron MacLean @ 7:30 P.M. with 18 members and guests present.

Secretary's Report: Presented by Jason Matheson.
Moved to accept by: Cliff Smith, Seconded by: Kevin O'Rourke

Treasurer's Report: Presented by Rolly Siemonsen. Bank balance is \$3180.17 and Book Balance is \$3180.17. Two cheques were paid out one for engraving and one for funfly canteen. We have 59 paid members and 5 more signed.
Moved to accept by: Kevin O'Rourke, Seconded by: Martin Irvine

C.F.I.'s Report: None given.

Maintenance and Projects: Due to time constraints the field rolling did not happen however the field looks to be in great condition. Grass cutting has begun. West side of field brush is growing up and needs to be cut down and taken away. It was decided that may 26th will be the workday to look after this job.

Old Business: Fathers day Fun Fly is June 17th and 18th. Breakfast will start Saturday morning around 8:00 a.m. It was mentioned that not enough info about the fun fly is on the website and the info that is on the web site is not easy to find. Byron will look after getting that info more accessible. Cliff Smith requested \$500.00 for canteen float for Fun Fly and was seconded by Kevin O'Rourke. We are still looking for help with the transmitter impound and Rick Naylor has volunteered to look after registration. We still need to find a big prize for the raffle, as this is one of our biggest moneymakers for the funfly. Supper will be looked after by Byron MacLean and helpers, Swiss Chalet was mentioned as a super choice but Byron has concern that the fries will be soggy and the chicken will be cold by the time supper comes. Matt Rodmell has agreed to run the events portion of the funfly. KRCM club members are able to fly in this funfly and this will be added to all advertising material. Gary Gorr will bring the club canopy.

New Business: It was mentioned that having port potties for the full month might be a better way to go. It was decided that we would have 2 port potties for June and August and only one for July and September. The cost is \$155.00 per month for 1 and \$120.00 for the second. Motion put forward by Byron MacLean for port potties and seconded by Martin Irvine. Club will look after the electric funfly canteen and lunch.

Work Shop: None.

Motion to adjourn by: Martin Irvine, Seconded by Gary Gore.

Meeting Closed at: **8:20 P.M**

Next meeting

Monday, June 12th, 2006, 7:30 PM
