

KINGSTON RADIO CONTROL MODELLERS

**MINUTES of the Regular Meeting
Monday, September 18th, 2006**

Called to Order: By Byron MacLean @ 7:37 P.M. with 22 members & 1 guest, Russell Wood.

SECRETARY'S REPORT: Presented by Wilfred Hill
Moved to accept by: Jim Thompson, Seconded by: Jason Matheson

TREASURER'S REPORT: Presented by Rolly Siemonsen
Bank balance of \$3284.72 with a book balance of \$2955.72. A check for \$37.50 to MAAC and one to Hogan's sanitation for \$291.50 account for the difference. We have 77 paid up members. The fun fly account now has a balance of just over \$1000.00.
Moved to accept by: Kevin O'Rourke, Seconded by: Ron Belyea

C.F.I'S REPORT: Presented by Brian Fisher. We have one new student looking for an instructor. Cliff Smith presented "wings" to Calvin Behm

MAINTENANCE & PROJECTS: The porta-potties were removed early, and we will ensure we are not charged for September. Mike Siemonsen reports that he has enough window material to replace three more in the clubhouse. Jim Thompson recommended taking down the windsocks for the winter. Following some discussion, it was decided to leave one up for the winter time fliers. Byron MacLean is going to carry on with the siding project on the wood portion of the clubhouse this fall.

OLD BUSINESS: Martin Irvine recapped the first official "Dawn Patrol" event, as the first attempt last year was scrubbed due to bad weather. We had 23 entrants for the 1-day event enjoying the fine weather and food. Many trophies were presented to the participants, with our own Jim Thompson receiving 3 awards for his fine "Bleriot" model. CKWS did an interview with Jim Thompson, which they aired for a 7-minute spot. Wilfred Hill reported that the September 2006 float fly attracted twelve club members for a perfect day of flying from Varty Lake. The event was topped off with a lunch of sizzling sausages and cold drinks supplied by the club. Gary Gorr as a member of the Kingston Fall fair board asked if the club could put on a 40-minute indoor flying demonstration. Martin Irvine, Mark

Tisdale, and Wilfred Hill flew electric models for a small but appreciative crowd inside the memorial center.

NEW BUSINESS: Cliff Smith and Wilfred Hill will organize a fall club fun fly on Sunday, October 15, 2006 at the KRCM field with hamburgers and soft drinks supplied by the club for lunch. Wilfred to put notice in the club web site forum and on the event calendar. They are now taking applications for the upcoming indoor flying season in the soccer dome on Division Street. There are two sessions offered, a fall session running from November 5th, 2006 and ending January 21st, 2007 and a winter session beginning on January 28th, 2007 and finishing on April 1st, 2007. Each session of 15 weeks costs \$150.00 or \$20.00 per day. Each session will begin at 8:00 A.M. and finish at 10:00 A.M. The Stetson flyers will be hosting the IMAA giant scale rally and pig roast September 23rd and 24th. Byron MacLean presented Jim Thompson with the clubs Cole Palen and Scale award for Jim's Bleriot. Next meeting October 16th, 2006 in the RCAF club at Norman Rogers airport.

Motion to adjourn by: Chris Driver, Seconded by: Spencer Grey

MEETING CLOSED AT 8:25 P.M.

Next meeting

Monday, October 16th, 2006, 7:30 PM
at the RCAFA club hall
