**C.F.I.'S REPORT:** Presented by Cliff Smith

**MAINTENANCE & PROJECTS:** No report

**OLD BUSINESS:** Woodcutting went very well. The team started at 9:30 AM and completed the work by 1 PM. Special thanks to Gary Gorr for letting us cut in his wood lot and for the use of his tractor and wagon. Car trailers were used to transport the wood to the club. Thanks to everyone who came out to help. The wood stove is in place and hooked up.

**NEW BUSINESS:** Snowplowing is to be done this winter. Paul Bauder proposed a motion for \$500.00 to be allocated for snow removal. Rick Naylor seconded it. Motion carried

Under the review of bylaws John Pickering said there should be a notice of motion for increases in the dues. Gary Droppo said there was no increase for 2009. He said that at the last meeting it was decided that \$5.00 of the dues which has been going to fund fun flies' will go into general revenue, as the fun fly fund has sufficient funds. Rolly Siemonsen indicated that the bylaws already contain a notice of motion for increase but a copy of them was not available. John Pickering agreed to check the bylaws to ensure the notice of motion for increase is there and is suitable.

Indoor flying is underway. Participants are generally having fun. There is a concern with one flier has had numerous mid-air with his heavy, high speed model (by indoor standards) and has damaged an excessive number of other planes. Some people no longer fly there because of this. Gary Droppo pointed out that KRCM has no control over the indoor flying. Rene Lebrun was kind enough to organise this, with involvement by Leading Edge Hobbies. A KRCM membership is not needed to fly there but a valid MAAC membership is.

We will hold our annual club auction after the February monthly meeting. There are plans for a Zone "G" auction with a date and time to be announced.
