MAINTENANCE & PROJECTS:

Spring Work Party

A work party has been planned for Saturday, May 8, 2010, commencing at 9:00 AM. Russell Wood will donate the use of his heavy equipment again this year. A list of 16 volunteers was completed during the meeting. Members who wish to assist should bring

work gloves, rakes, shovels, wheelbarrows, chain saws and other tools that may be of use. Lunch and refreshments will be provided.

OLD BUSINESS:

Rolling the Field: Dave advised the meeting that Rolly Siemonsen had done the rolling by himself this year and thanked him for his work. (Rolly noted that he did not have his cell phone when he picked up the roller and could not call other members to assist.)

Weed Spraying: Gary Droppo stated at the March meeting that will attend to this upon his return from holiday.

Fertilizing: At the March meeting, Rod Levesque volunteered to do this but was not present at the meeting to provide an update. He will be contacted regarding progress.

Father's Day Fun Fly: Mike Siemonsen will contact Contest Director Rod Levesque about the preparations and volunteered to contact the media concerning the event.

Electric Fun Fly: Martin Irvine stated that MAAC has provided their sanction for the event, but no announcement appeared in the last issue of Model Aviation Canada. He will advertise it through RC Canada and The E Zone. Martin will also contact Cliff Smith to determine if he will be available to operate the canteen.

NEW BUSINESS:

May Meeting Workshop:

Rolly advised the members that the May meeting's Workshop would be construction of Minnow rubber-powered models provided by Lloyd Shales. For approximately \$6.00 per participant, members will receive the kits, adhesives and covering, with the use of building boards. These will be flown in an informal contest at the June meeting. Members were advised that these Minnows are fun to build and can attain flights of up to one minute's duration.
